

Linux avanzado/Debian servidor impresoras

José Santorcuato T

- Lo primero es instalar los controladores de la impresora, para este curso marca hp, el controlador es el hplip

- En Ubuntu descargué el hplip de HP, en este curso también lo hice, pero funcionó a medias

<https://developers.hp.com/hp-linux-imaging-and-printing/install/install/index>

Note:

These instructions assume that the hplip-3.18.6.run file was downloaded to your Desktop directory. You may have to adjust the 'cd' command based on where your web browser saved the file on your system.

```
~ - Shell - Konsole
Session Edit View Bookmarks Settings Help
user@host:~$ cd Desktop
user@host:~/Desktop$ sh hplip-3.17.10.run
```

- Al momento de reiniciar y pasar al update no encontraba los ppd
- hp-update
